

FARLEIGH HOSPICE & FRIENDS OF ST LUKE'S CHURCH TIPTREE

TIPTREE HISTORY DAY

Dear Tiptree Community Group,

As you will know we have a wonderful Community in Tiptree, and I would go as far to say we are quite unique. It is a great place to live and to be part of.

We also have a lot of Community Groups in Tiptree serving all ages of our Community and many of these Groups have been up and running for many years and some are newer ones.

As you will see around you Tiptree is expanding and we have new people moving here and hopefully wanting to be part of our Community. To help everyone who is moving here, and possibly many who have lived here a while, we would like to hold an information/history day. At this Community Groups and local businesses/organisations (who make Tiptree unique), will have the opportunity to tell everyone who they are and what they do.

We are arranging this event on the 15th June 2019 in St Luke's Church and its hall (in the Extension) and we would like you to be part of it.

We would like to ask each Group to compose a story board showing their history, and saying what they do and when they meet. We also would ask you to encourage your members to come along to support the History Day, perhaps by taking part and speaking to anyone interested in your group, or by coming to look at the other displays.

I feel that this is a wonderful opportunity to promote your Group and hopefully help you to gain new members to ensure its future. We plan to have coffee and teas with refreshments available during the day for visitors to enjoy, as well as one or two of our musical groups performing in the church.

I do hope you will consider being part of this event and help us to show what a superb Community we have. If you would like to take part please complete and return the attached booking form; or to register your interest - or if you have any queries, please phone me, Sheila on 01621 816084 or email: thurstableteamadmin@btinternet.com

I look forward to hearing from you.

Yours faithfully

Sheila Gunson
